DETAILED ACTION

Allowable Subject Matter

1. Claims 1-10 are allowed.
2. The following is an examiner's statement of reasons for allowance.

The limitations that distinguish the claims of this application over the prior art are the limitations concerning the light receiving element array comprising a plurality of elements that detect different wavelengths as recited in independent claims 1 and 8.

Proper motivation can't be found in the prior art to combine references that disclose these limitations with the references that disclose the other limitations recited in the claims of this application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
